

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

THIS little book has been prepared by a teacher of large experience, under my supervision, as one of a series introductory to my school readers. It is beautifully illustrated with original designs by BILLINGS, engraved by JOHN ANDREW.

The use of pictorial illustrations in works adapted to the minds of young children is sanctioned by the experience of all practical teachers. In childhood the senses are very active, and advantage should be taken of them as means of intellectual training. Many ideas are conveyed at once by the eye which could otherwise be communicated only laboriously and imperfectly. Early familiarity with beautiful and graceful forms tends also to develop the sense of beauty, and to culti-

vate the fancy; and thus open a never-failing source of refining and elevating pleasure.

The reading lessons are very simple, and words are frequently repeated, in order to stamp them more strongly on the memory.

The columns of words illustrating the simple elementary sounds, and the sentences connected with them, will be found very useful in training the organs of the pupils to an accurate and distinct enunciation. The habit of pronouncing correctly every word can easily be acquired in the primary school; and it will be of great advantage to the pupil in his future progress.

This book is printed on tinted paper, upon which choice books of art, fine engravings, and elegant editions of favorite authors in Europe, and to some extent in this country, have long been printed. It is more grateful and less injurious to the eye than paper of a perfectly white color.

The Lord's Prayer.

Our Father which art in heaven,
hallowed be thy name. Thy king-
dom come. Thy will be done on
earth as it is done in heaven.
Give us this day our daily bread.
And forgive us our debts as we
forgive our debtors. And lead
us not into temptation, but de-
liver us from evil. For thine is
the kingdom, and the power, and
the glory, forever. Amen.

Child's Evening Prayer.

Now I lay me down to sleep,
I pray the Lord my soul to keep.
If I should die before I wake,
I pray the Lord my soul to take.

Worcester's School Dictionary,

FOR THE USE OF

PRIMARY SCHOOLS.

This little work, which is an abstract from the larger Dictionaries of Dr. Worcester, contains a vocabulary of the common and well-authorized words of the English language, such as will be found in books used in the Primary and Intermediate Schools. The pronunciation of every syllable is marked, and the definitions are accurately and concisely expressed.

In the education of youth, nothing can be successfully accomplished without thorough training. The steps must be gradual and certain; and these cannot be taken without constant reference to a Dictionary. Besides, children must learn to educate themselves. It is in vain that we tell them from day to day how a word is pronounced; but if we direct them to a pronouncing Dictionary, and let them ascertain for themselves, they will not only be more likely to recollect it, but they will acquire a habit of investigation and thought, which will soon become permanent, and aid them in all their future progress.

A copy will be sent by mail to any teacher, for examination, on the receipt of twenty-four cents in postage stamps.

WORCESTER'S PRONOUNCING SPELLING-BOOK.

The orthography and pronunciation of Dr. Worcester's Dictionaries represent the best usage of the English language. The Spelling-Book presents the same system, and teachers throughout the country will welcome its appearance. It is the most accurate, comprehensive, and complete Spelling-Book ever published.

A copy will be sent by mail to any teacher, for examination, on the receipt of twelve cents in postage stamps.
